

# OUR APPROACH TOWARDS

## ENVIRONMENT PROTECTION

**Roncadin S.p.A. SB 's** mission also includes the environmental protection as a determining factor to **maintain and meet the expectations of all stakeholders** and being competitive on the market. It carries out its activities in perspective of continuous improvement, with the aim of causing the least possible impact on the environment.

Through environmental policy **we commit to:**

ensuring our activities meet the **legislation** and **regulations** regarding environment, and occupational healthy and safety

increasing the use of renewable energy and develop **production efficiency** projects to encourage reduction of the waste of energy and raw materials

ensuring compliance of the Environment Management System to **UNI EN ISO 14001:2015** standards

relying on **sustainable supply chains**, which preserve ecosystems and biodiversity respecting people's rights

**preventing pollution** by prioritizing reduction at the source through a careful management of the activities

**We promote**

01

**the optimization of business activities** through technologies that minimize the risks on the environment

02

**the participation of our staff** in implementing and improving the Management System, through training, information and accountability

03

the **support for other management roles** to show the application of the leadership to their respective areas of responsibility

## Our goals

**Protection and safeguard of the environment**

waste **minimization**

improvement of the of **Environmental Management System**, to enhance performance from a life cycle perspective

improvement of the **environmental credibility** towards all parties involved

strengthen the **Model of organization management and control**, preventing environmental crime and reducing the risk of penalties
